# Andi Syafiudin Musafir

+6282190893801 | altafpasallo12@gmail.com | syaafiudinm.online | Makassar, South Sulawesi

## Professional Summary

Backend-focused Computer Science student at Hasanuddin University with experience in PHP and Go. Proven track record in building production-grade systems, including an invoice platform and e-commerce apps. As Chairman of HMIF FT-UH, I blend technical expertise in API design with strong leadership. Eager to contribute to scalable, high-performance systems through a backend engineer journey.

## Technical Skills

- Languages & Frameworks: PHP (Code Igniter, Laravel), Go (Gin, Fiber), Javascript
- Database: MySQL, PostgreSQL, Supabase, Firebase, Redis
- Cloud & DevOps: AWS (EC2, RDS, S3), Docker, Linux Server, Google Cloud Platform.
- API Development: RESTful API, JWT, Postman
- Testing: PHPUnit, Unit Testing, TDD
- Tools: Git, GitHub, Postman, Docker

## Professional Experience

**Backend Developer Intern**

PT. Digital Desa Indonesia | Gowa | Nov 2025 - Present

- Developed comprehensive invoice management system for internal operations handling 50+ monthly transactions using CI3, MySql to automated generate invoice and receipt.
- Optimized database queries for invoice reporting module through indexing strategies and query refactoring, reducing average response time from 3.2s to 0.8s (75% improvement) and enhancing user experience.

**General Chairperson of HMIF FT-UH**

OKIF FT-UH | Hasanuddin University | Oct 2024 - Jun 2025

- Served as the primary representative and executive leader of the Informatics Engineering Student Association, overseeing 300+ members and coordinating 7 internal departments.
- Spearheaded the strategic planning and execution of departmental work programs, ensuring alignment with the organization's vision
- Managing and being responsible for all activities of the Hasanuddin University Faculty of Engineering Student Association in accordance with the field of Informatics.

## Education

Universitas Hasanuddin | S1 Teknik Informatika | Aug 2022 – Jun 2026

- GPA : 3.55 / 4.00
- Relevant Coursework : Data Structure & Algorithm, Object-oriented Programming, Cloud Computing, Software Engineering, Web Development.

## Selected Projects

- A RESTful API built with Go (Golang) using Gin framework, featuring JWT authentication, user management, and a post management system with likes and comments functionality. (https://github.com/syaafiudinm/go-api).
- This Project is one of my lecture task, i build a dashboard with key feature such as employee presence with QrCode and handle all product, also cashier with payment gateaway, integrated with midtrans. (https://github.com/syaafiudinm/AthayaShop)
